Story

It all started out there, on the road, in 86, experiencing what the world had to offer - creativity in its purest form. Ever since then, the spirit of forward motion has been ingrained in what we do: Worldly in expression, daring in construction, and at no time bothered by conventions. Our creations take interiors to unexpected places, bring them to life, and make them *play*.

We dedicate ourselves to the ethos of play. We explore with enthusiasm, design with humour, and create with the curiosity of a lifelong learner, and most importantly, we respect and nurture our greatest asset - our creative instinct. Our best *play* is yet to come, and when it does, it will come from within.

While following the game of adulting with rules written by someone else, ironically some might forget the magic of *play*. *Play* is essential for human development - it gives rise to imagination and fuels creativity.

- ▲ We exist to give everyone a chance to play by their own rules,
- To express their creative vision through interiors that fear no boundaries,
- To create room for the unexpected in a life that can be otherwise prescribed,
- To have fun, and to make space for play.

Story

POLSPOTTEN

The old POLSPOTTEN logo served its purpose for over a decade. Recognizable by its stencil qualities and its contribution to building the strong brand we have today. The revitalisation of the POLSPOTTEN brand look and feel comes with a slight, but prominent change. Imagined by Erik Pol in 1986, a business started in the back of a car. With a focus on importing pots, the

company was named 'Pol's Potten.' POLSPOTTEN has come a long way from that starting point. Pivoting into a balanced organisation that extends far beyond the pots, POLSPOTTEN has evolved from Erik's starting point. Therefore, we move away from the first / surname proposition of the logo into one singular lockup 'POLSPOTTEN.'

What's New

Optical Rugs

Introducing the latest addition to our home décor collection, the Optical Rugs. Our rugs are easy on the eye and the planet, they're produced without Bitumen, PVC or Latex, and are made in Germany from 100% recycled fishing nets collected by the well coveted environmental organisation, Healthy Seas. Healthy Seas was founded in 2013 to tackle the ghost fishing phenomenon which is responsible for the needless death of marine animals. Through cleanups with volunteer divers and by working with stakeholders of the fishing sector toward marine litter prevention, they collect waste nets and ensure they become valuable resources.

From both a design and manufacturing standpoint the Optical Rugs lean into the future. They have a nostalgic presence and can interpret a traditional or contemporary environment with ease. These rugs are no illusion, enhance your space - choose from three colourways. Now available online.

Don't Eat Me, Save Me

You might be wondering why our golden animal head money boxes are called: Don't Eat Me, Save Me. Figuratively speaking (and of course, these are not real animals) they're a sign of the times: eat less meat, save the animals, save the planet...and you can save your coins. Our animal heads are a fun gift to give, they make for an amusing piece of decor, and they're functional.
